

Short CV
OSDT Gonidis Sokratis
Greece

After graduated from Technological Institute of Athens (TEI) as a certified dental technician in 2000, he was specialized in orthodontics. In 2003, he opened a laboratory named GONIDIS LAB in Athens and he has been working there until today.

He has been a collaborator with National and Kapodistrian University of Athens from 2000 and also with the post-graduated department of orthodontics, prosthetics and craniofacial pain clinic.

In the late years, he has been specialized in digital orthodontics and 3D printing. GONIDIS LAB is an authorized laboratory for SCHEU Clear Aligner and for DENTAURUM MAGIC Lingual technique.

Furthermore, the laboratory is specialized in the construction of stabilization and sleep apnea splints.

Socratis has also collaboration with German company named Lampert Welding Devices as an international demonstrator and for that reason he has been taken part in many exhibitions and conferences.
